1. Cut out board and task icons.

2. Create your own icons with the blank squares if needed.

3. Laminate board and icons.

4. Place Velcro pieces on the back of each laminated icon, and the opposing Velcro pieces on each small and large square on the board.

5. Teacher or student can create a task schedule by placing the icons in the large squares in order.

6. Have the student move the star across the small boxes as he/she completes each task.
